## SUMMARY

- Blockchain and Web3 Developer with strong foundation in smart contracts and decentralized applications (dApps).
- Experience with Solidity, React, MetaMask, Ethers.js, Laravel and Node.js.
- Delivered production-ready dApps and NFT-based systems with user authentication, minting, and real-time interaction.
- Hands-on with full stack development including Web3 integrations, hosting, domain configuration, and backend logic.
- Languages: Portuguese (native), English (basic), French (basic)
- Technologies: Solidity, JavaScript, React, MetaMask, Ethers.js, PHP, Laravel, Node.js, MySQL, PostgreSQL, Docker, Git

## BLOCKCHAIN & WEB3 PROJECTS

### Web3 Developer | Kadosh Systems (Self-employed)

Jul 2023 - Dec 2024

- Developed and deployed a full-stack photography management system with Laravel and Web3 features.
- Implemented NFT-style dynamic pricing and gallery system with upload, drag-and-drop sorting, and smart link expiration.
- Integrated HTML-based custom quote generation with user-level permissions and public access link.
- Created admin dashboard, contact management, and SEO optimization with keywords and meta configuration.

### Smart Contract Developer | Hackathons and Technical Challenges

2024 - Present

- Built ERC-721 smart contracts using Solidity for NFTs and deployed on Sepolia testnet.
- Integrated frontend with MetaMask via Ethers.js for real-time minting and wallet interaction.
- Documented the full lifecycle of contract deployment and user interaction flow.
- Created NFT booking/reservation system with React and Solidity for BlockStay hackathon.

## ADDITIONAL SOFTWARE DEVELOPMENT EXPERIENCE

- Led backend and systems architecture as Tech Lead at TechSocial (PHP, APIs, cron jobs, large queries).
- Built internal logistics and delivery system using Laravel at Baston with real-time vehicle tracking.
- Developed multi-client resource and fleet management systems using Laravel, PostgreSQL, and dashboards.

## EDUCATION

- Postgraduate Diploma in Business Intelligence - 2020 | Positivo University, Brazil
- MBA in Administration and Marketing - 2018 | Uninter University, Brazil
- Technologist in Systems Analysis and Development - In progress | Federal Technological University of

Parana, Brazil

- Technologist in Financial Management - 2013 | Uninter University, Brazil
- Blockchain Certification - Since Jan. 2024 | NearX Platform
- English Course - Jul. 2020 | KNN Idiomas, Brazil
